OUR GOAL

TO END ABUSE IN SPORT

Federal law gives the nonprofit U.S. Center for SafeSport an important mandate: To end Sexual, Physical, and Emotional Abuse and Misconduct across the U.S. Olympic and Paralympic Movement, encompassing over 11 million individuals in more than 50 sports.

We pursue this mandate by setting athlete safety policies and reinforcing abuse prevention and accountability across the Movement.

And we help parents, coaches, athletes, and other sport allies build better sport cultures in organizations across America that stir kids to move, compete, and thrive.

COURSES FOR DIVERSE ROLES AND AGES

Now more than ever, athletes deserve—and parents expect—sport environments that make them feel safe, supported, and strengthened.

We offer more than a dozen SafeSport® courses to enable anyone to understand how to prevent and recognize abuse and misconduct in sport settings. Though each course has a distinct focus and audience, all will better equip you to:

Prevent.

We help you proactively take steps to prevent abuse and misconduct, showing how Power Imbalances and culture dynamics can affect abuse prevalence, and highlighting ways to build inclusion and team cohesion.

Recognize.

We educate you about distinct forms of Sexual, Physical, and Emotional Abuse and Misconduct, how they may appear in your environment, and how to recognize warning signs.

Respond.

We'll show you strategies for building team habits of attention and intervention if warning signs become evident, and for properly reporting and responding to disclosures.

In addition to the required online training courses (Core and Refreshers 1, 2, and 3), there are several additional courses that will help specific audiences within your organization — health professionals, volunteers, parents, youth athletes and more.
